

Neil Twist armchair

Designer	Jean Marie Massaud
Year	2019-2020

Bold, versatile, refined, yet an icon of simplicity, perfectly aligned with MDF Italia's aesthetic. The Neil Twist Armchair stands out for its handwoven rope, which is the defining feature of the seat, enhanced by a sophisticated detail: a contrasting stitch that highlights its elegance. Offered in four colour options for the rope, the armchair is available with a steel base in white or lead black finishes, with or without armrests. Designed by Jean Marie Massaud, this seat is suitable for both indoor and outdoor settings, where its tones, both sober and more decisive, add character to private gardens, public spaces, and hotels.

Shell

Load-bearing seating structure made of steel, woven with high-tenacity polyester cord, solution-dyed, guaranteeing high resistance to atmospheric agents, light, and abrasions, with stretch resistance.

Frame

Load-bearing frame in matt epoxy powder-coated steel rod, with a specific treatment for outdoor use.
